## SUFFRAGE LEADER IS RECENT BRIDE

Mrs. Donald McGraw.

A recent bride in the ranks of the suffragists is Mrs. Donald McGraw. She was Miss Clara Louise Rowe until her marriage to McGraw, a Detroit man. The wedding followed a seven weeks' courtship which started when Miss Rowe went to Detroit on the "prison special." She has campaigned for suffrage all over the country and is a national organizer for the party. She is a San Francisco woman and is noted as one of the most beautiful suffragists.

## PRUSSIAN, NATIONAL GOVERNMENTS PLACED IN AWKWARD POSITION

[BY ASSOCIATED PRESS.]

Berlin, April 10.—The resolution adopted at the opening session of the congress here last night peremptorily demanding the release of Georg Ledebour, the independent socialist leader, arrested during the Spanish outbreak, has placed the Prussian and national government in a predicament.

The demand was based on the fact that Herr Ledebour had been elected a delegate to the congress and the contention that he should be permitted to exercise his duties in that connection.

Independents Favored.  
The chairman of the congress ruled favorably to the independents on a preliminary motion and a turmoil resulted in which the violence of the resolutions hurried from the left by the radicals caused the majority socialist members to become wobbly in a degree sufficient to insure the necessary votes to carry the motion.

The result was wildly applauded and the officials of the congress had no other choice than to address messages to the national and Prussian governments, the states attorney and the authorities of the Moskau jail, where Ledebour is confined, apprising them of the wishes of the socialist delegates. Up to this evening no official action had been taken. The members of the government are expected to leave for Weimar early Wednesday morning.

Opposed to Freeing Him.  
The Prussian ministry of state is said to be opposed to setting Ledebour free, but the independent proposition was pressed and a decision, it is indicated by a declaration of Herr Rosenfeld, former Prussian minister of justice and an independent leader, that informed the presiding officials that he might be taken for granted that they would promptly proceed to comply with the wishes of the delegates so that Ledebour might be able immediately to take part in the deliberations of the congress.

Among the resolutions introduced in the congress is one calling on the government to appoint five delegates of the congress as members of the German peace delegation.

## ARMY CALLS FOR 15,000 FOR AVIATION SERVICE

A call for 15,000 men to join the air service branch of the army has just been received by Postmaster J. J. Cunningham. Enlistments are wanted for one year or three without further obligation to military service. This is a chance to learn to fly and to acquire an intimate knowledge of knowledge of planes, engines, electricity, machinery and machine shop work at government service on full pay.

The government furnishes clothing, food, medical attention and all other necessities. The pay schedule is as follows:  
Private, \$30; corporal, \$34; sergeant, \$38; first class, \$41; sergeant, \$44; first class, \$47; sergeant, \$50; master signal electrician, \$51; master signal electrician, aviation mechanic, \$121.50.

If you are able to be discharged—\$30 bonus, .05 a mile to your home. A month's furlough to start within 30 days of reenlistment with privilege of furlough fare. A sure job to carry you over the period of unemployment.

For further particulars, call or write to any of the following: Department Air Service Officer, 230 E. Ohio St., Chicago, Ill.; Recruiting Officer, 2 S. State street, Chicago, Ill.; Commanding Officer, Chanute Field, Rantoul, Ill.; Commanding Officer, Scott Field, Belleville, Ill.; Commanding Officer, Selfridge Field, Mt. ## Look for Criminal Well Known Locally

Chief of Police William E. Gower and members of the Janesville department were notified today to be on the lookout for Joe Davis, an escaped federal prisoner. Davis, who has numerous aliases, some of which are Joe Peeney, Joseph Davis and Dan Dillon, is well-known to the local officers having hung around the city for days at a time and sleeping nightly at the station. On Jan. 9, he was taken to Leavenworth from Madison, where he was sentenced to a five year term for stealing a mail sack.

## 2,000 Delegates Attend Illinois Labor Meeting

Springfield, Ill., April 10.—More than 2,000 delegates are here today attending the opening session of the state labor party convention. Members of the organization declared this is the biggest labor meeting of its kind ever held in this country. It is the intention of the delegates, according to some officials of the party, to launch a labor political party similar to that of the non-partisan league of North Dakota, which will regulate and control all matters pertaining to labor and affecting the workers, for the benefit of the working masses.

## OSTRICH AND MARABOU MAY SUPPLANT SUMMER FURS

For those women who scorn summer furs, soft fluffy ostrich and marabou wraps are a smart and modish substitute. The ostrich neckpiece is not as durable or practical as the lighter peltry, but it provides plenty of warmth to make the cool spring and summer gowns feel comfortable.

## JAP CIVILIANS IN KOREA ARE WARNED

[BY ASSOCIATED PRESS.]

Seoul, April 10.—Leo A. Bergholz, of the American consulate here has made inquiry of the Korean government regarding the cause of the Japanese civilians with heavy clubs, suggesting that such practice might be dangerous to the lives of foreigners.

He declared that if the armed civilians were attached to the police force, they should be so designated and that if they were not, the practice should be abandoned, and expressed the fear that if such action were not taken foreigners might adopt measures for self protection which might bring about an undesirable situation.

In its reply the government general admitted the Japanese were armed, but said they had done so to protect themselves against the Koreans. It said the civilians were not attached to the police force, but gave assurance that the government general would do its best to prevent abuse of the practice.

Seventy-one persons charged with engaging in demonstrations have been tried and sentenced to prison. It is reported that the police were attempting to force merchants to keep their shops open at Shingishu on the Manchurian frontier.

WAR VETS' MEET  
WILL MARK EPOCH  
IN U. S. HISTORY

Friday evening will mark an epoch in the story of the great war which is drawing to a close with the organization in Janesville of the first of the local American War societies that bid promise to become so important an item in the reconstruction period of history.

With the first of the soldiers, sailors and marines, who were in the service of the United States, returning to their civilian work and life under changed conditions, it had been deemed wise to band them together in an organization which is similar in its scope to the Grand Army of the Republic and the United Spanish War Veterans as soon as possible.

It was several years ago that the Civil War ended and G. A. R. came into existence and its work, the scope of its activities, has been felt through the decades of its organization in the years past. The United Spanish War Veterans came into being shortly after the struggle with Spain and while its numbers are few as compared with the G. A. R. and but a drop in the bucket to the world's greatest army organization.

The pioneers in the present movement in Wisconsin have seen the need for the new organization. Already in Milwaukee over 100 men have been enrolled and but a small quota of the men who were in service have returned home as yet. In fact in a dozen or more other cities similar, camps or clubs have not been organized.

James Zannius of the Apollo theatre in Chicago, has been in the city with Mrs. Zannius. Miss Katherine Brown of Oakland avenue is home from Chicago, where she has been spending several days.

COMMISSION TOLD  
BY CHR. HAMBRECHT

(BY FRED L. HOLMES)  
Madison, April 10.—On direction of both houses of the legislature, Chairman George P. Hambrecht of the Wisconsin Industrial commission, appeared before the senate today to explain the necessity for the \$100,000 annual increase in appropriation to the state industrial commission.

At the outset, Chairman Hambrecht, who is the first official to be called here by the legislature under the interpretation law, said that the appropriation asked for by the industrial commission two years ago had been reduced \$24,000, annually by the joint finance committee.

"As a result all of the work has suffered," continued Commissioner Hambrecht. "It has been necessary to lay over the minimum wage work."

He said he believed in the need of the legislature to take care of the objections raised by patent medicine people. He asked Bennett if he was not an advocate of fewer commissions. Bennett replied that he was not.

Bennett asked Hambrecht if he was not an advocate of fewer commissions. Bennett replied that he was not. He said he believed in the need of the legislature to take care of the objections raised by patent medicine people.

Hambrecht said that there were about 3,000 boilers in the state whose duty it was for the industrial commission to inspect. There was only one boiler inspector and on street table.

The same is true with regard to elevator inspection, declared Mr. Hambrecht.

Hambrecht maintained that additional employees were needed in the fire prevention field.

Hambrecht said that of the 20,000 accidents annually, about 94 per cent was settled without contest and only need to be checked over by work.

He said that the industrial commission had about 100 cases a month that must be considered by the industrial commission.

Mr. Hambrecht asked the legislature to appropriate money for a sanitary engineer, might be hired who would supervise this work. He told of the work that had been done by the commission with hours of labor problems and mentioned the Kenosha case.

Free employment agencies are needed, continued Mr. Hambrecht. The legislature has been asked to appropriate \$22,000 to carry on the employment work until July 1.

Wisconsin carries on this work all the year, and it should be in my opinion the year, and it should be in my opinion the year, and it should be in my opinion the year.

Answering a question regarding arbitration, Hambrecht said that the budget estimate was for \$500,000 annually. But that if there was an increase of \$6,000 to \$6,000 annually. In conclusion he said that all told the commission needed 11 male inspectors.

In addition to the present force of two women inspection cases; one director of free employment bureau; one apprenticeship deputy; one more person in the statistical department, one woman to work on minimum wage work, and several additional clerks and stenographers.

**INDIANA BANKERS  
BUY COUNTY STOCK  
TO BOOST DAIRYING**

Dealing only through the Rock County Shorthorn Breeders' Association, Marion, Ind., bankers purchased and yesterday shipped from here a carload of pure bred Shorthorn calves for boys' club work and the fostering of a better dairy stock cattle in Indiana. There were twenty-four calves in the shipment and the aggregate price was in excess of \$5,000.

For several days past the Hoosier state men have been throughout the county purchasing the Shorthorn calves ranging from six to eighteen months in age.

A peculiar and what Shorthorn breeders declare as the best boost yet for their organization was that the Indiana bankers refused to do business with any farmer unless he was a member of the association.

The men represented the Farmers Trust and Savings bank. The party was in charge of Willard Elkins, vice president, and with him were W. E. Seelye and A. H. Gibbons, directors and Prof. Creek of the Agriculture department of Purdue university who judged the purchases for the bankers.

When leaving Mr. Elkins said that he would return in the fall for close to fifty calves.

The corn crop will be materially increased through the influence of corn clubs, which have been organized all over the country among the children of the rural communities.

Another enjoyable party was held last evening in the K. P. hall. Five Hundred was played at 13 tables and was thoroughly enjoyed by all participants. Delicious refreshments were served during the evening.

Mayor E. H. Libby and Chief of Police Fred Gillman were in Janesville yesterday attending a meeting for the purpose of engaging a motorcycle officer for highways and motorcycling.

Byrd Ballard has returned to Cincinnati, Ohio, to resume the work in which he was engaged before going into service.

Miss Marion Calkins has gone to New York City, where she will enter into Red Cross work.

LEGISLATURE ARGUES  
BENNETT BEER BILL

(SPECIAL TO THE GAZETTE).  
Madison, April 10.—For three hours Wednesday afternoon, the senate committee on state affairs of the Wisconsin legislature listened to arguments in favor of three per cent beer. Scores of men representing the labor organizations in all sections of the state appeared in favor of a provision in the dry bill to that effect. The committee had under consideration the Bennett bill providing for a prohibition commissioner and an appropriation of \$25,000 to enforce the dry regime.

Senator Bennett opened the argument in favor of his bill. He said that the present law prohibited any liquor in dry territory and that his bill would prohibit beer with 1 per cent of alcohol. He offered a score of amendments which he declared would take care of the objections raised by patent medicine people.

He asked Bennett if he was not an advocate of fewer commissions. Bennett replied that he was not. He said he believed in the need of the legislature to take care of the objections raised by patent medicine people.

Hambrecht maintained that additional employees were needed in the fire prevention field.

ger and Better Community.**

**ENCOURAGEMENT.**

Encouragement is given by the  
reports coming out of Paris that the  
council of four has determined that  
responsibility for the war be placed  
upon the former German emperor  
and the means for bringing him to  
trial by one of the allied governments  
be definitely fixed. Also the decision  
that Germany must pay war damages  
of \$5,000,000,000 within the next two  
years and that an allied commission  
have the power to assess the remain-  
ing damage for the next 30 years, be-  
ginning May 1, 1921, heartens those  
who have been watching anxiously for  
some concrete results to result from  
the peace conference.

It would appear that with these two  
obstacles removed, the path to per-  
manent peace will be prepared for  
smoother going.

A great deal of discussion has re-  
sulted over the attempt to formulate  
an ideal peace. President Wilson has  
fought valiantly for the retention of  
his fourteen points. Representatives  
of other nations have had their eyes  
fixed upon the more material side of  
the question and as a result, because  
Wilson is a strong-minded and deter-  
mined man, little actual business has  
been transacted.

Whether Wilson's calling of his ship  
to be in readiness for a hasty de-  
parture from France has had any-  
thing to do with the sudden move for  
definite action on the ex-kaiser's pun-  
ishment and German reparations is not  
known, but it is not difficult to link up  
that move as having some bearing up-  
on the situation.

European countries, naturally, af-  
ter four years of bloody war, look up-  
on a peace proposition with different  
eyes than the United States. Although  
steadfast in their decision to forget the  
ravages to which they have been sub-  
jected by the German militarists, and  
when they think of peace, they first  
think of reparation.

**COTTON PRICES.**

With "the south in the saddle" at  
Washington, cotton planters detected  
any attempt to regulate cotton prices  
during the war. Now they are going  
to take further advantage of a demo-  
cratic administration dominated by  
those southern gentlemen who during  
the stress of the war have used their  
power to squeeze a few more pennies  
out of the poor, by keeping the price  
of cotton up to its present mark.

Announcement comes out of Wash-  
ington that a great combination has  
been formed to control production and  
boost prices. This will mean a de-  
cided increase in the price of cotton  
and no reduction, if not an advance  
in the price of cotton clothing and  
other cotton goods. Of course the  
consumer will have to pay.

The cotton planters have quietly  
and systematically carried out effect  
a reduction of one-third in the acre-  
age devoted to the cotton crop of  
1919. They have also agreed to hold  
their present stocks of raw cotton to  
a price of 20 cents a pound or more.  
The present price now ranges from  
22 to 26 cents.

Gov. Allen, Kansas, has charged the  
cotton planters with violation of the  
Sherman anti-trust law, declaring cot-  
ton at 35 cents is equivalent to \$3.25  
wheat.

Attorney General Palmer has been  
overwhelmed with thousands of let-  
ters of protest from all parts of the  
country. He has referred the matter  
to his trust busting department and  
the question is being "studied."

With a solid front from the south  
bringing pressure to bear upon other  
administration congressmen, it is quite  
probable that the matter will not get  
far beyond the point of being "stud-  
ied."

**ROCK COUNTY READY.**

Rock county in a few days is going  
to plunge into the task of raising her  
quota of the Victory loan. Her forces  
are being marshaled with the pur-  
pose of making the campaign a re-  
cord-breaker. That the quota will  
be raised by nature will be a foregone  
conclusion. Rock county has not failed to  
respond patriotically to any call the  
government has made upon her when  
help was needed. Her record is clear  
and she can point with pride to her  
achievements. Her work in the past  
has been done thoroughly, without  
blatant of trumpets, but earnestly.

We are a rich community. We  
have been endowed by nature with  
riches almost limitless. Prosperity has  
been our portion while the world  
across the Atlantic suffered. We can  
afford to be generous in our loan to  
Uncle Sam, who with his wonderful  
soldiers brought the war to a close  
and who through his power to finish  
a job well started, has stood out as  
the protector of the oppressed.

These advantages of our land are suf-  
ficient to cause a hearty response to  
the call when it comes. Considering  
the proposition as a business invest-  
ment will also assure those who sub-  
scribe a fair return upon their sav-  
ings.

Rich and poor are going to be asked  
to help us finish the job we started.  
Those who have stood so firmly be-  
hind the government at a time when  
the future looked dark, who our  
boys were facing Hun shells will show  
their appreciation of the victory won  
by marching up in unbroken ranks  
and putting their cash into Uncle Sam's  
strong-box.

**CLEAN SPORT.**

Clean sport is an asset to any com-  
munity. Sport promoted to the bene-  
fit of all interested will survive.  
Sport which is used as the means of  
a few in reaping financial benefits  
cannot survive in a community like  
Janesville.

This city should have a good base-  
ball team for there are many fol-  
lowers of the game who would give  
support if they are assured that real  
contests will be provided this summer.  
An effort is being made to gather an  
aggregation of ball players that can  
be moulded into a team which will  
represent Janesville in a satisfactory  
manner. The men interested have de-  
clared their aim to be to furnish  
clean sport by the best players ob-  
tainable. They have given assurance  
that every cent of money which will  
be raised or taken in at the gate will  
be used to defray the expenses of the  
team and that not a single person will  
reap any financial benefits except  
those players who will have to be  
paid.

Janesville is going to need recrea-  
tion. Her population is going to be  
increased by young men who will seek  
amusement of some kind when their  
work is finished for the week. Among  
them will be many who are baseball  
fans and who would patronize the  
ball park if a good team can be  
brought together. Already Milwaukee,  
Beloit and Edgerton have asked  
for dates here, and others will no  
doubt furnish competition as soon as  
the season opens.

The team needs uniforms at once  
and some work must be done to get  
the diamond in shape. If the fans  
want a team they can have one by  
getting the funds to make a start.

Internal Revenue Commissioner  
Roper has again announced that  
manufacturers and dealers who in-  
crease prices on taxable articles more  
than enough to cover the taxes and  
misrepresenting the amount of the  
tax to the customer will be prose-  
cuted. Mr. Roper will have to in-  
crease his corps of sleuths in many  
communities.

A press dispatch says that many  
U. S. senators have been attracted  
by the possibilities of aviation. Is it  
because so many of them have been  
up in the air of late and have become  
accustomed to the sensation?

With the prospect of paying \$5,000-  
000,000 war damages in the next two  
years, Germany had better pull off  
her coat and get busy. She can never  
have any money while revolutionists  
are shooting funds out of the muzzle  
of guns.

The government is going to train  
thousands of revenue agents to detect  
illegal sale and manufacture of liquor  
after the first of July. According to  
present indications in most communi-  
ties it will be necessary to provide  
about one sleuth for every 10 per-  
sons.

Dear Roy—Any time you want to  
start a movement to eliminate the fe-  
male operators of department store  
elevators you may count on me for  
double-listed support. Recently I was  
riding up in one of those cars, the  
only man among a dozen women.  
"Fourth floor," the uncertain blonde  
at the switch was announcing, "cor-  
sels, ladies' underwear." And she  
tuned and flung her eyes squarely at  
me, without even shifting her wad of  
seamstress. In the confusion that be-  
fell me I actually started to get out,  
but with a desperate effort I recov-  
ered my equilibrium and stepped  
back—just in time to land my heel  
on the instep of an out-stepping fat  
lady who was calling, "Corsets, out!"

By EDGAR A. GUEST

MAN.

A salesman wooed a lady fair, like  
goods upon a shelf.  
Unto the maiden of his choice he  
sought to sell himself.  
And he was glib and smooth of  
speech, yet frank and honest,  
too.  
And all the art of salesmanship he  
understood and knew.  
Against the competition of the world  
he had to stand,  
For there were many seekers for the  
favors of her hand.

"My dear," said he, "I offer you not  
handsome looks or wealth;  
The line of respect on earth is  
noted for its health;  
It has had better men than I to carry  
on its name.  
And they have built for character  
instead of feeble fame.  
As one of them I offer you my future,  
with the vow  
That I shall make it just as fair and  
good as I know how.

"Others may promise more than I,  
much more may others give,  
I can but offer unto you my best  
while I live.  
You'll pay a greater price for me  
than some one else may ask.  
But do not judge the liquor by the  
labels on the cask.  
High hopes and young ambition now,  
and dreams of joy, but love  
Are all I have to sell to you, but love  
I guarantee.

"I will not fall you in the test, I  
will not wound your pride,  
I will not bring you down to shame,  
if you become my bride.  
When trials come I'll bear the load;  
I may not bring you fame,  
Nor wealth, nor friends of high re-  
pute, but if your love I claim  
I'll try to bring you happiness, what-  
ever else may be.  
And here the maiden blushed and  
said: "You've sold yourself to  
me."

## Chinese Troops Dispatched to Keep Treaty With Russ

[BY ASSOCIATED PRESS.]  
Peking, April 10.—In contravention of the Russo-Chinese treaty, which is now regarded as having lapsed, the government has sent 500 Chinese troops to Urga and a similar number to Khabarovsk and it is indicated that additional men may be sent later.  
The Russian legation has presented a note to the government protesting against this dispatch of Chinese troops into outer Mongolia.  
The government is still apprehensive of Bolshevik incursions agents of the Russian soviet regime being reported to have established recruiting stations in Turkestan. Officials at Shanghai have been ordered to exercise vigilance to prevent the entry of Bolsheviks and are said to be coming into the country through that port.

Hun Government Troops  
Occupy the Krupp Plant

[BY ASSOCIATED PRESS.]  
Berlin, April 10.—Government troops are reported to have occupied the Krupp plant which, according to previous reports, had been seized by the Essen strikers.  
The troops posted artillery at the entrance to the plant. As a result, the advance state, two-thirds of the workmen resumed work.  
During the operations of the troops they threw hand grenades in the midst of a crowd plundering a baggage van, causing much excitement.  
From Saxony unrest is reported. The communists of the Vogtland district have issued a demand that Saxony be made a soviet republic, while the metal workers at Zwickau, southwest of Chemnitz, and a large proportion of the Saxon miners have gone on strike.

## BUILD 110 HOMES IN SECOND WARD; WORK HAS STARTED

One hundred and ten homes costing from \$2,500 to \$7,000 will be started within the next few days in the second ward in the Schofield addition. Messrs. C. E. Beers Agency, will run the work to completion and this morning had contract workers on hand ready for immediate installation of walks. Surveyors from the office of Charles C. V. Kersh were taking grades this morning.  
The Chicago firm has built similar projects in Flint, Mich., and have erected many apartment houses in Chicago. They secured one hundred and ten lots in the deal and plans are to erect a substantial residence on each lot. Two sub-contractors have been given to local men, Frank Britt to do the excavation work and Snyder, the plumbing.

## SCHOOL W. S. S. DAY WILL BE NEXT TUESDAY

Keeping children's accounts with "Uncle Sam" is the object of the School War Savings program, which organization day in all the schools of the county have been designated by the Rock County committee as Tuesday, April 16.  
A suggestion program with other material on the W. S. S. society campaign is being sent to about 476 teachers in the county in country and city schools. Reports of the organization are to be mailed at the close of the meeting to O. D. Antisdel, county superintendent, and J. H. Fuchler, state director of the W. S. S. campaign, Milwaukee.  
The campaign material is being mailed from the office of O. D. Antisdel today. War posters are being mailed by the publicity chairman, A. E. Matheson.  
Several schools have previously organized such societies. They will be required to make a report on their progress. Schools which have vacation April 15 are asked to organize their societies on that time, holding the report until Tuesday.  
A group of school children, 50 per cent of whom have opened a personal account with "Uncle Sam" and who are saving their pennies regularly to purchase a share in the W. S. S. savings stamps constitute a W. S. S. society. A cent saved each day by the school children of America means \$1,000,000 of savings weekly. An engraved government certificate signed by Carter Glass, secretary of the Treasury; J. E. McDougal, governor federal reserve bank, St. Louis; and E. Fuchler, will be awarded to each society.  
Adult societies will be formed after the close of the Victory loan drive.

## COUNTY BOARD BILL ENDORSED BY C. OF C.

Assemblyman Thomas S. Nolan's bill to increase the representation of cities on the county board of supervisors was given the unanimous endorsement of the Chamber of Commerce at a meeting of the board of directors yesterday afternoon.  
The bill which now rests in the hands of a committee, if passed, would increase the membership of the Rock County board to 60 or 61, which Janesville and Beloit having from 10 to 20 representatives.

## Much Heavy Fighting is Reported at Wuerzburg

[BY ASSOCIATED PRESS.]  
Copenhagen, April 10.—Dispatches from Klessengen report that citizens and officials of Wuerzburg have struck against the Bavarian soviet republic and that the town now is in the hands of government troops. Heavy fighting against Spartan forces occurred when government troops stormed the royal palace and captured the railway station, but the fortress of Marienberg, across the river main, was handed over without opposition.  
Most of the Spartan leaders are reported to have been arrested.

## Only 125 Cases of Total Blindness During War

[BY ASSOCIATED PRESS.]  
Washington, April 10.—There were only 125 cases of total blindness and fewer than 4,000 amputations in the American forces engaged in the war, it was stated today by the Bureau of War Risk Insurance in an announcement concerning the bureau's activity in supplying crippled soldiers and sailors with artificial limbs and in otherwise caring for the wounded and disabled. Not even all of the 125 cases of total blindness died. It is stated, have yet been declared as permanent by the medical officers in charge.

## Navigation to Soo Opened Earliest in Many Years

[BY ASSOCIATED PRESS.]  
Sault Ste. Marie, Minn., April 10.—Opening navigation to the Soo the earliest in many years, the steamer Pargny docked at Kemps fuel dock here last night. She succeeded in breaking the ice in Hay and Mud lakes, making the run almost in regular time. The Pargny will fuel before proceeding and is expected to lock up today.

## Open Bridge Bond Bids at City Hall

Sealed bids for the taking of \$70,000 worth of municipal bonds for the new bridge at Jackson street were to be opened at the city hall this afternoon. Nine bids had been filed with City Clerk Hemming this morning and it was expected that enough more would be received to fill the total amount to be received up to the time the committee met.

## CITY'S ENDORSEMENT OF NYE BILL VOICED BY CUNNINGHAM, WELSH

Janesville's endorsement of the Nye bill which would increase the bonding power of cities was presented by City Attorney Roger G. Cunningham and Mayor-elect Thomas E. Welsh when the bill came up for hearing before a joint meeting of the corporation committee of the senate and the municipalities committee of the assembly at Madison yesterday.

Mayors and city attorneys from 20 of the leading cities of the state were present to endorse the bill.

The bill provides that cities may issue public improvement bonds on any city-owned public utilities. Under the statutes no city can bond beyond 5 per cent of its assessed valuation.

Why Janesville favors the bill was pointed out by City Attorney Cunningham with a few figures.  
The city's assessed valuation is now \$10,855,260 which makes the bonding limit \$542,763. The bonded indebtedness, including the Jackson street bridge bonds is \$225,000. Adding to this amount the \$60,000 bonds for the high school site and from \$350,000 to \$400,000 for the new high school the total bonded indebtedness will reach around \$385,000.

With the mammoth sewerage and water main program, street improvement plans, and proposed school repairs and improvements, the city will soon reach its bonding limit unless it becomes possible to bond the city water works. This will be possible if the bill passes the legislature.

## CITY ENGINEER GETS ASSISTANT

Glenn Fisher, a graduate of the local high school and of the Engineering department of the University of Wisconsin tomorrow will enter the city engineer's office as assistant to C. V. Kerch. Mr. Fisher comes to Janesville from Hannibal, Mo., where he has been employed on government work for the past several years.

City Engineer Kerch plans to use Mr. Fisher as the city's inspector on the work at the Jackson street bridge. In addition he will be given other work as business in the city engineer's office has multiplied much and rapidly during the past several months.

Co-operation with the Housing Corporation in the city planning movement, drafting of plans and specifications for the big water main and sanitary sewer extensions together with innumerable jobs arising from the expansion of the city necessitates the additional help.

## JACKMAN NAMED HEAD OF "HOUSE" CAMPAIGN

F. H. Jackman has been named chairman of the committee in charge of the "Build a House" campaign which will be launched Monday by the Chamber of Commerce.  
It was decided by the directors yesterday that it would be necessary to conduct the work at this time despite the fact the Victory loan campaign will be in progress shortly.  
The campaign is merely one to obtain the data on houses which are going to be built in Janesville this year. Blanks will be furnished to proposed builders.

We wish to thank neighbors and friends for the beautiful floral offerings and kind sympathy shown the family during their late bereavement.  
MRS. NETTIE FANNING

## CITY IS GROWING; HOMES BUREAU OF C. OF C. PROVES IT

Is Janesville growing?  
Since October, 1918, 418 individuals have secured rooms, flats or homes through the homes registration service of the Chamber of Commerce. This was brought out at the directors' meeting yesterday afternoon.  
The records show that 81 houses, 44 flats, and 79 suites of rooms for light housekeeping were rented.  
Furnished rooms rented number 214, 175 of this number being rented by people who ask for "men or women", 2 by those who asked for "men only", and by those who wanted "women only".

Count Romanones, premier of Spain, leaving Madrid for peace conference, above. Left to right: M. Dard, French ambassador to Spain; Senor Lacierya, Spanish minister of interior; Senor Maura, ex-premier; Count Romanones and U. S. Ambassador Willard. Below, at left, Prince Max of Ratibor, and Spanish socialist delegates to Berne conference. Left to right: Augusto F. Largo, Senor Cavellero and Julian Besteiro.

International students agree that the most regrettable feature of the world war and its effect on nations has been the failure of the Spanish people to realize the end of the old order of things and enter into the newer and broader principles of national and international affairs. Spain not only failed to take a definite stand

against imperialism when it threatened the world but even, until recently, failed to be interested in the first great attempt of the world powers to establish a permanent peace. A short time ago Spain finally sent Premier Romanones to Paris to confer with President Wilson regarding Spain's possible position in the League of Nations. That Spain is finally awake, though, is shown by the

fact that Prince Max of Ratibor, German ambassador to Spain, has been driven from the country because of his activities in spreading German propaganda. Spain's socialist element is watching the progress of their party in the post-war changes. A Spanish delegation attended the socialist conference in Berne, which incidentally did not bear much fruit in the way of accomplishments.

## Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I am a girl of 16. About four months ago I met a boy. I went several places with him and liked him real well. I am afraid I like him too well, but I never let him know it.

We had a quarrel about one month ago and have not been speaking. Last Saturday night I saw him in town and he did not seem me. When I saw him I felt as if I were going to faint. I have seen him twice since then and have felt the same way both times.

Can you tell me what makes me feel that way? I am a girl of 16. I am in love with a boy. I am a girl of 16. I am in love with a boy. I am a girl of 16. I am in love with a boy.

Dear Mrs. Thompson: I am a girl of 16. I am in love with a boy. I am a girl of 16. I am in love with a boy. I am a girl of 16. I am in love with a boy.

I just received a letter from a girl who is in love with a boy. I am a girl of 16. I am in love with a boy. I am a girl of 16. I am in love with a boy.

## A WOMAN'S BUSINESS

WHY SO FAR APART? With singing heart Janet attended to her unfinished business and set her desk in order. She was waiting for the post as editor of "Woman." She was impatient to get home and tell her new plan for work. Home! The very word seemed to her a new meaning to Janet. Home was no longer a mere symbol of hurry and worry, neglected duties and chaotic events. It stood now for peace and love, harmony and work. The very thought of home made her feel that she was fit for the very best of things. She was a woman; work that would keep her close to Janet and permit of his being her comrade, his professional running mate as well as wife.

As she rubbed shoulders with the hurrying throng Janet saw a vision of home as it should some day be to herself and Walt. Not only a place in which their bodies, but a place in which their minds and souls should grow and send out ever-widening rays of usefulness and joy.

She would work hard, very hard, at learning to write, rather than doing executive editorship. She would be very grateful to Walt if he showed her "how." She would strive to set down simple, helpful things that she knew about, or made it her business to learn. She would follow Walt's work patiently and closely and perhaps find ways to help him.

And by and by, when success had come to both, they would have a house with a flower garden in front and a kitchen garden at back, and a dog and a cat and a boat and a little motor car. And she and Walt would each have a big study with a fireplace and a large desk and bookcases and leather chairs and the pictures she loved and never had time to hunt up and buy.

Each morning they would shut themselves in their respective studies and work and work till lunch time. Then they would go out and see the world again until midday. Then they would go out and see the world again until midday. Then they would go out and see the world again until midday.

They would be rich, but not too rich to lose touch with life's great reality. They would have time and money to help loads of less fortunate ones to help themselves. They would have travel. They would have life in all its fineness and fullness. And, best of all, they would both be earning it, and earning it together, with no one's help.

## HEALTH TALKS

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

**IRIDULENCE OF RISEASE GERMS**

In a great epidemic such as the recent influenza epidemic it is usually noticed that the infection increases in virulence, that is, the disease grows more rapidly and affects more persons and grows more severe up to a certain stage of the epidemic; and that the infection seems to diminish and steadily in virulence toward the end of the epidemic. There is a well recognized reason for this, a reason not the least fascinating to the mode of treatment employed or to the measures of control adopted by public health authorities.

Germs of disease are grown on artificial culture media in the laboratory, just as the housewife grows her yeast for bread making on a culture medium of sugar and water. As the germs gradually decrease in virulence with succeeding generations until eventually it may be impossible to infect an animal with germs which would ordinarily prove fatal. But if a young culture of disease germs is injected the animal is invariably infected with the disease. And, if germs from the culture are recovered by some of the germs from the sick animal's blood or tissues, these animalized germs are found to be much more virulent than their yeast-like ancestors. Thus, the germs which produce the characteristic symptoms of the disease, whatever it may be, and in a incubation period were revived when the germs were similarly injected.

The shorter time between the incubation of the animal and the appearance of the first symptoms of the disease is known as a shorter incubation period. When a given disease has a shorter incubation period the disease is more severe, as a rule, than when the incubation period is longer. For example, when the incubation period of tetanus (lockjaw) is four or five days after the trifling wound or injury in which the tetanus bacilli gained entrance, the incubation period extends over a week or ten days the chance of recovery is always better.

With influenza the incubation period and the virulence of the infection follow this law. As the epidemic progressed toward its peak the incubation period shortened, the infection increased in virulence and the disease proved more severe.

Animal passage, then, tends to increase the virulence of an infectious disease. The germs seem to inherit the increased virulence from the powers of their progenitors of last week that have attacked and overcome the defenses of the human body.

## CAPE WILL DEFY APRIL RAINDROPS

By ELOISE.

April showers bring charming rain-coats and pretty umbrellas. Of course also, but the raincoats of this season are quite different from those of the past. They are made of a new material, called "raincoat," which is a combination of silk and rubber. It is a bright green and red plaid rubberized silk cut into a smart cape with a high collar. The practical feature of such a cape is that it can be folded into a very small space and carried in a rubberized bag of the same material when not needed to protect one's suit or frock. Another reason why women like it is that the undergarments are cooler for wear on close, sultry days than the neat coats with their sleeves, their skirts and their hats. It is a fact that the new raincoat is an excellent hat for rainy day wear.

**TRIED RECIPES.**  
Cream Pea Soup—One-half pint left-over canned peas, one pint milk, one teaspoon butter, one level tablespoon flour, salt, pepper. Press the peas through a colander. Add to the milk, bring to a boil, add the flour and salt, and stir until thickened. Add the peas and butter. Serve with a little cream.

**Salmon Loaf.**—One can salmon, two eggs, two cups bread crumbs, half cup milk, one-teaspoon lemon juice, salt.

**Good for Nits.**  
Kindly print something good for nits, as I have tried everything without success. My little girl brought them home from school two weeks ago, and it seems impossible to rid her head of the nits. (Mrs. E. A. C.)

**ANSWER.**—Saturate the hair with equal parts of kerosene and vinegar, and allow it to remain three hours, with the head and hair wrapped in towel or covered with a bathing cap. Then shampoo with soap and water. Repeat every alternate day as long as any nits remain.

**Possible Origin in the Office.**  
Don't you know that yeast is produced along with which you are so positively opposed, and that alcohol is the leathome waste product or toxin of the yeast germ? (A. S. J.)

**ANSWER.**—In practice, alas, the yeast seems to produce no internal fermentation at all, at all, but on the contrary, after diminishes fermentative processes.

**AFTER STOCKTAKING.**

In the stocktaking of emotions, and conditions and tendencies which we are all conducting more or less consciously now that the great expected and unexpected event has actually come to pass, there is nothing that surprises me more than to find how tightly people still seem to cling to the old unreasoning race prejudices.

And not thoughtless, ignorant people either, but educated people who have high enough on the plane of living to have a broader vision than that point of view connotes.

That we should emerge from the war with certain race prejudices intensified is absolutely inevitable, but that this should not be balanced by an internationalization of thought and feeling in other directions is a sin and a shame.

Let me tell you of three illustrations of this narrowness of mind that refuses to be widened.

**A Perfect Description of Race Prejudice.**

A woman told me that she had left a hotel because the management had taken in a family of "certain nationality." "What sort of people were they?" I asked. "I don't know," she

peppered. Remove skin and bone from one can salmon, mince the fish with a fine silver fork, add two beaten eggs in which has been stirred one cup of stale bread crumbs, half cup milk, season with salt and pepper, add one teaspoon lemon juice, a little chopped parsley, mix and put into a greased pan, cover and bake one hour.

**Orange and Pineapple Salad.**  
Three-fourth cup each of diced orange and canned pineapple, two tablespoons powdered sugar, mix and chill. Dressing: Two eggs, one tablespoon butter, half cup milk, half cup vinegar, half cup sugar, butter, vinegar, salt, cook until thick, mix with fruit and place on lettuce leaves.

**DISCOVERIES.**

When Making Pudge, stir in half a pound of marshmallows before you turn it in the tin to cook. They immediately melt and make the candy as smooth and creamy as can be.

**Changing the Water** two or three times will keep potatoes from turning dark, which happens so easily to old potatoes at this time of year. If they have been frost-bitten this will improve.

**A Broom-Supporter** made of spoons is a simple and convenient device. Screw two large empty spoons high up in the middle from a door, just far enough apart to allow the handle of the broom to slip in. The broom part rests on the spoons.

**To Mend Faded Colors.**—Put furs of other article in a muslin bag which has been dipped into a green dye. Moths will not attack green material.

**To Mend Faded Colors.**—Take equal parts soft putty, finely sifted coal paris soil, and sifted table salt. Mix all together. Cover holes well, then place pot or vessel with a little water in it on stove and set till cement is hard. This never fails and is as hard as the enamel itself.

**JOHNSTON'S ALMOND SHORTS.**

All that the name implies, a short, cool, fit with almonds. For sale at your grocers.

**Real-Fruit Desserts.**

Jiffy-Jell is flavored with fruit juice essences in liquid form, in vials.

A wealth of fruit juice is condensed to flavor each dessert. So it brings you true-fruit dainties, healthful and delicious, at a trifling cost.

Simply add boiling water.

Compare it with the old-style gelatine desserts. It will be a delightful revelation.

## Connie Mack Boasts Greatest Scoring Machine In League

George Burns, above; Roth, below at left, and Tilly Walker.

By N. E. BROWN.

Ever since Connie Mack started the baseball world by breaking up his team of stars and selling them the fans have been interested in watching the lanky one's efforts to build up another pennant-winning outfit.

So they are doubly interested in the Mackmen this year because the general shakeup in the game due to the war, effects them as well as the other teams.

Connie's attack this coming season will center around a trio composed of George Burns, Bobby Roth and Tilly Walker. These three men formed the greatest run-making machine in the American league last season.

Burns drove in seventy-four. Roth drove in fifty-eight. Walker pushed over fifty-three. Their grand total was 185.

The combination coming nearest to this was the famous Cobb-Veatch-Helms outfit with the Tigers. They drove across 182.

Connie evidently had this attacking trio in mind when he engineered the deal whereby he got Roth from Cleveland. The loss of Larry Gardner, in that deal, isn't worrying Connie. He looks to Fred Thomas, obtained from the Red Sox, to fill Gardner's shoes. Recalling Thomas' work in the last world series, it is inclined to believe Mack has the right hunch. After weeks of absence from the game because he had joined the service, Thomas stepped into the big series last fall and played errorless ball. The only thing he needs is more ability as a batter.

## WHITMAN IS NAMED CLEARY SUCCESSOR

[SPECIAL TO THE GAZETTE.]

Madison, April 10.—Senator Platt Whitman of Highland, is expected here this afternoon to assume his duties as state commissioner of insurance in place of Mr. Cleary, who Wednesday afternoon was elected second vice-president of the Northwestern Mutual life insurance company of Appleton. The present term of Whitman will be until June 15, but he will be immediately appointed for the four year term. The salary of the office is \$5,000 annually. Cleary intends to assume his new duties on May 1. Members of the state senate said today that there was no question but that Whitman would be continued as insurance commissioner.

## State Aids 689 Families of Men in U. S. Service

Madison, April 10.—A total of \$141,207.45 has been expended by the state to aid the families of soldiers who have gone to war. R. J. Castle, who has charge of the administration of that department, announced Thursday that the whole number of families aided up to April 5 this year was 689 and that the number receiving aid at this date was 351.

## STRIKE PROBE VOTED DOWN IN ASSEMBLY; NOLAN LEADS FIGHT

[SPECIAL TO THE GAZETTE.]

Madison, April 10.—A somnolent session was turned by the late hour of the Wisconsin legislature Wednesday night when by a vote of 63 to 17 it practically retraced its steps on the labor situation in Madison and adopted a resolution by M. E. Johnson, Madison, calling upon the National War Labor Board to enforce its award against Madison manufacturers. Earlier in the day by a vote of 45 to 40 the house had killed a resolution by Assemblyman Klein asking for an investigation of labor conditions in the Capitol City.

When the Assembly convened Wednesday evening, Assemblyman F. M. Grass, Sturgeon Bay, offered a resolution memorializing congress to enact legislation necessary to enforce awards of the war labor board and requesting the Secretary of Labor to publish certain facts regarding these awards.

Assemblyman M. E. Johnson countered with a substitute which was approved by Assemblyman John Donnelly of Milwaukee. This resolution strikes direct at the Madison manufacturers and declares that an agreement of submission to arbitration of the National War Labor Board was signed by nine corporations and companies and but one of these employers had refused to abide by the determination of the board.

"I don't like this resolution introduced by Assemblyman Johnson," said Assemblyman Nolan of Janesville. "It assumes that the manufacturers of Madison are at least one of them, has not lived up to the award of the federal war labor board. That is not true. As I understand it there is a controversy over the classification of labor union would pay the skilled mechanic as high wages as the skilled mechanic. I move the rejection of the substitute."

Several questions it was a foregone conclusion that the Johnson substitute was to be adopted, when Assemblyman Grass took the floor in opposition.

Of course if some of you fellows are afraid of the evening blot go ahead and adopt the Johnson substitute," declared Assemblyman Grass. "It will not be one of them who is bluffed by that paper. The house refused to reject the substitute and it was adopted by a vote of 63 to 17."

By a vote of 47 to 23 the house passed the Ruffing bill providing for one day rest in seven days in a bill by Chilson classifying influenza as a contagious disease, and a bill by Bowman, giving the state board of health, power to promulgate orders closing public places and places of amusement during the epidemic.

Over two hours was given over to a debate of the assembly on the C. E. Hanson bill providing for increase in the income taxation.

## Commands of 4 Generals in American Army Shifted

[BY ASSOCIATED PRESS.]

Coblenz, April 10.—The commands of four generals in the American army of occupation have been shifted, according to an announcement today.

Major General William Lassiter, who has commanded the 32nd division since it entered Germany, is designated chief artillery officer of the third army.

Brig. General William C. Hahn, who commanded the 32nd division during the war will have command of that division when it leaves the Rhine for home.

Since the American army has occupied this section General Hahn has been a corps commander. Brig. General Cronkite and Muir, also third army corps commanders, were assigned to the 10th and 11th divisions, the 10th and 11th respectively.

## Latin-American Socialist Congress to Open April 26

Buenos Aires, April 10.—The Latin American socialist congress will open here April 26. Peru, Bolivia, Chile, Uruguay and Paraguay will send delegates. The congress will discuss hours of labor, wages, arbitration, disarmament and the exploitation of labor by foreign capital.

At Roosevelt, New Mexico, serious damage to the peach crop was reported. The snowfall in New Mexico varied from six to ten inches.

## WHO'S WHO in the Day's News

Dr. James K. Patterson, president emeritus of the University of Kentucky, who was 86 years old March 26, has accepted an invitation to go to New York April 12 to be the guest of honor of the Kentucky Alumni club, composed of men who have been educated by Dr. Patterson in the last fifty years.

He has long been a close friend of Andrew Carnegie and John D. Rockefeller. Dr. Patterson is the best known educator in the south and one of the most noted men in the country in educational circles. He, with the late Justin Merrill of Vermont, were responsible in large part for the system of state universities which now prevails. Their efforts to secure government consent to appropriate government land for the use of state universities were crowned with success nearly sixty years ago.

Dr. Patterson was born in Scotland and came to America as a young man. He joined the Kentucky state university when it was a struggling young institution and through his efforts it became one of the leading colleges of its kind in the country. He has made his name as an author and editor, and at his great age is as keen of intellect and bright of eye as he was when he was 50 years old. He is looking forward to his trip to New York with much interest as he exhibited when he saw its infantile skyline more than sixty years ago.

**BROOKLYN.** Brooklyn, April 7.—The marriage of Miss Laurence Crocker to Emil Mason occurred Thursday afternoon at the home of the bride's parents, Mr. and Mrs. Wallace Crocker, in the presence of about 30 of the immediate relatives.

At four o'clock, Miss Crocker, sister of the bride, played the wedding march. The young couple proceeded by Isabelle Crocker and Idelle Boyce as flower girls took their places in an aisle formed by ribbons which the flower girls carried. The ring ceremony of the Methodist church was used. Rev. George Brown, Madison, officiating. The bride was attired in a gown of white silk tulle over flesh colored satin, and carried a bouquet of white roses.

After the ceremony and congratulations, a two course luncheon was served by the Misses Alice Main and Wilma O'Brien.

Both of the young people are well and favorably known in this vicinity. Miss Crocker is a graduate of the local high school and of the local commercial college, Madison. For some time she has held a position as sten-

Total number of buyers of T. M. E. R. & L. Co. 5-year, 7% Notes passed the 3,100 mark at 4 o'clock of Wednesday, April 9; more than 3,000 of them residents of Wisconsin, more than 2,000 of them residents of Milwaukee, 745 of them women.

## Total sales Dec.

18 to April 9 inclusive—34 business days—were \$2,343,000, a daily average of \$25,347.87 with 33 the daily average number of buyers.

## Most of these

buyers are small capitalists.—working men and women who loan their savings to finance the growth of the Milwaukee district's electric power, light, heat and car services.

If all of Milwaukee's rich men will exhibit comparable faith by putting their idle capital to work here at home—in their own industries or in building homes for sale or rent—Milwaukee will quickly set the country a needed example of how to "keep the home wheels turning" and make plenty of good jobs for all our people.

It is more important today than ever before that Milwaukee's wheels of industry be kept turning, for unless the producers are employed, at good wages, many will be unable to take any part of the new Victory Loan. Uncle Sam must get billions of dollars to bring the armies home. Idle industries and idle workmen can't contribute. Our national slogan should be:

**Get Busy!**

The Notes are on sale in \$50, \$100, \$500 and \$1,000 sizes, at par for cash. We have invested the money in new income-producing and employment-giving additions to our physical property. Your 7% interest starts the day you buy. Between May 1, 1919, and Nov. 1, 1923, the \$50 Note will earn \$15.75; a \$100 Note, \$31.50; a \$500 Note, \$157.50; a \$1,000 Note, \$315.

You collect interest May 1 and Nov. 1 by clipping coupons and taking them to your bank—same as on Liberty bonds.

The Notes will be paid off in cash, full face value, Nov. 1, 1923. If you need your money before that date, bring or send your Notes in any time after the sale of the \$3,600,000 issue closes, and we will put them on sale for you.

# Free Yourself of Rupture Without Pain, Operation or Loss of Time

**FOR** the benefit of our readers we take pleasure in publishing the Brooks offer to save all who are ruptured from wearing painful makeshift trusses that do not cure.

The Brooks Appliance Co. gladly sends this remarkable patented Appliance ON TRIAL to prove that it holds the rupture back, keeps it in place, prevents it coming down or slipping out and finally assists Nature to heal up the rupture.

No man or woman ever can look and feel his or her best while suffering the torment, pain and discomfort of rupture.

Every day that you suffer from rupture—every hour of truss torture that you endure—after you read this page is your own fault.

For many years we have been telling you that no makeshift truss will ever help you. We have told you about the harm ill-fitting trusses are doing. We have told you that the only truly comfortable, sanitary and scientific device for holding rupture is the Brooks Rupture Appliance.

Now we offer to prove it to you, entirely at our risk. We will send you a Brooks Rupture Appliance on trial. If you really want to be rid of your rupture fill out the coupon below and mail it today.

Instead of wearing a steel spring or inflexible harness, try the velvet-soft Brooks Appliance.

Instead of the old hard or stuffed pad, use the soft rubber automatic air-cushion of a Brooks Appliance.

The Brooks Appliance clings to you without force and you are hardly conscious of its presence. But above all else, it **HOLDS** always.

Within an hour after you receive the Brooks Appliance, if you take advantage of this remarkable trial offer, you will throw away your truss forever.

## Over 685,000 People Have Accepted This Offer. Why Not You?

Doesn't that prove that the Brooks Appliance is not an experiment but a positive success—that it does all we claim for it? Among these 685,000 men, women and children there must be **hundreds whose condition was identical with yours.** Can you afford not to investigate and satisfy yourself when it costs you nothing to prove what the Brooks Appliance will do for you?

This wonderful device is a triumph of scientific and mechanical genius, the outcome of more than 30 years experience, and the results accom-

plished by its use are little short of miraculous.

Many hundreds of physicians and surgeons recommend the Brooks Appliance and condemn makeshift trusses as more harmful and dangerous than any other method of retaining and treating rupture. Thousands of people have written us testifying to the amazing results they have secured from this great invention. Many of these people live right in your vicinity and we will be glad to send you copies of their thankful letters if you will ask for them when you write.

## Men, Women and Children Find the Brooks Appliance Equally Effective

No matter if your rupture is old and severe or only recently developed, no matter if you are young or old, you should not fail to profit by this **No-Risk Trial Offer.**

No other rupture support, truss, lock, device, pad or plaster is offered to the public under so broad a guarantee of satisfaction.

If for any reason whatever you do not wish to keep the Brooks Appliance after you try it, send it back. You don't have to give any reason. You are to be the sole judge. There will be no argument, no dispute or misunderstanding.

## Ten Reasons Why You Should Accept This Offer.

1. It is absolutely the only Appliance embodying the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation.
4. Unlike ordinary so-called pads, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands do not give the unpleasant sensation of wearing a harness.
7. Nothing to get foul; it can be washed without any injury.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All materials are the very best that money can buy, making it a durable and safe Appliance to wear.
10. Our reputation is so thoroughly established and our prices so reasonable, our terms so fair, that you should not hesitate to send the free coupon today.
